### *Optional Toyota 360 Support*

Toyota 360 Support provides complete support for your forklift fleet. You'll be connected with Toyota Advanced Logistics - giving you proprietary insights and exclusive access to our most advanced technologies.

Along with many other benefits, you'll also receive 1 year of free periodic maintenance and a guaranteed 4 hour emergency response time.

### TRAINING

Every lift truck operator needs proper OSHA forklift certification, and at Toyota Lift Northwest you can easily attend one of our monthly classes for proper training. In addition to forklift certification, we offer a Train the Trainer class, so that you can have someone at your facility who is certified to train other operators. We value safety and guarantee to provide you with all the information you need to meet OSHA requirements and have the safest operator procedures. Our class teaches:

- ▶ Forklift Stability
- ▶ Avoiding and Responding to Tip Overs
- ▶ Performing Daily Safety Inspections
- ▶ What to Wear During Operation
- ▶ Maneuvering a Forklift
- ▶ Driving on Inclines
- ▶ Loading Dock Safety
- ▶ Pedestrian Safety
- ▶ Refueling/Recharging Your Lift
